PROFESSIONAL SUMMARY

Full Stack Java Developer with hands-on experience building scalable web applications using Spring Boot, Angular, and MySQL. Strong in REST API design, **RBAC implementation, and MVC architecture**. Proven ability to develop production-ready backend systems and integrate responsive frontends. Solid foundation in Data Structures & Algorithms and object-oriented programming.

TECHNICAL SKILLS

Languages: Java

Backend: Spring Boot, Spring Data JPA, Hibernate, RESTful APIs.

Frontend: Angular, HTML5, CSS3, Bootstrap.

Database: MySQL.

Tools: Git, GitHub, Postman, VS Code, Eclipse, Maven.

Core Concepts: Object-Oriented Programming (OOP), MVC Architecture, Data Structures & Algorithms (DSA), SDLC, CRUD Operation.

WORK EXPERIENCE

Python & Django Developer Intern

Nov 2024 – Dec 2024

Xcel Corp, Belagavi

- Developed RESTful APIs and backend features using Django, improving data handling efficiency.
- Integrated MySQL database for optimized data storage and retrieval.
- Collaborated in Agile environment to deliver features within deadlines.

PROJECTS

Hospital Management System | Angular · Spring Boot · MySQL

Mar 2026 – Apr 2026

- Built a full-stack hospital app with role-based access control (Admin & Doctor), reducing unauthorized access risks.
- Developed 15+ REST APIs for patient, doctor, and appointment management with full CRUD operations.
- Optimized database queries using JPA/Hibernate, improving data retrieval speed by 30%.
- Designed a responsive Angular UI with reusable components, reducing frontend development time.
- Wrote exception handling using @ControllerAdvice to return meaningful API error responses.
- Modules Developed:** Patient Management, Doctor Management, Appointment Booking, Admin Dashboard.

Exam Portal System | *Spring Boot · REST APIs · MySQL*

Jan 2026 – Feb 2026

- Architected a backend quiz engine using layered MVC design, ensuring clean separation of concerns.
- Built and deployed 10+ REST endpoints (GET, POST, PUT, DELETE) for complete quiz lifecycle management.
- Developed an interactive frontend using JavaScript, HTML, and CSS for a smooth student exam experience.
- Integrated frontend with backend REST APIs, enabling real-time question loading and result display.
- **Modules Developed:** Admin Module (Add/Manage Questions, View Results), Student Module (Login, Take Exam, View Score).

Employee Management System | *Spring Boot · MySQL*

Nov 2025 – Dec 2025

- Developed a backend REST API system handling 100+ employee records with full CRUD operations (Create, Read, Update, Delete).
- Implemented clean layered architecture — Controller, Service, and Repository layers — ensuring separation of concerns and maintainable code.
- Used JPA/Hibernate ORM in the Repository layer for structured database management, ensuring data integrity and consistency.
- Tested and validated all REST API endpoints using Postman, confirming accurate request/response for each CRUD operation.
- **Modules Developed:** Employee Registration, Department & Designation Management, Salary Records, Employee Search & Filter, Update & Delete Operations.

EDUCATION

- **Master of Computer Applications (MCA)** | 2023 – 2025 Jain College of Engineering, Belagavi (JGI) – VTU CGPA: 8.3 | Percentage: 81.55%
- **Bachelor of Computer Applications (BCA)** | 2020 – 2023 S.J.P.N. BCA College, Nidasoshi – RCU, Belagavi CGPA: 8.0 | Percentage: 78.93%

CERTIFICATIONS

- **VTU MOOC – Social Network Analysis (12 Weeks)** | Visvesvaraya Technological University
- **Data Structures & Algorithms – Complete Course** | Apna College

KEY STRENGTHS

- Strong knowledge of Core Java OOPs pillars — Encapsulation, Inheritance, Polymorphism, and Abstraction with hands-on implementation.
- Proficient in Java Collections Framework, Java 8 features (Lambda, Stream API), and JDBC database connectivity.
- Hands-on experience building REST APIs using Spring Boot with layered MVC architecture (Controller, Service, Repository).
- Practical knowledge of Maven build tool, Servlet, JSP, and API testing using Postman.
